Nature Style

15.0" - 16.4"

PVC and nickel free shoulder bag made of environmentally friendly canvas material

DICOTA's new NatureStyle offers both environmental protection and style for Notebooks ranging up to 16.4" in size. Its tough environmentally friendly canvas material not only gives it a distinctive look but also makes it robust and extremely hard-wearing. Business style even for allergy sufferers: The bag is 100% PVC and nickel free. High-quality leather and brass trims give the final touches to its stylish design.

The interior of the DICOTA NatureStyle will win you over with its spacious main section. A removable, padded sleeve not only offers your Notebook optimum protection but it can also be carried around on its own without the bag at all times. The main section has space for documents as well as the separate cable pocket in a matching canvas look. Writing implements and small accessories such as USB sticks, CDs etc., can be neatly stowed away in the specifically designed zipped front pocket and are within easy reach. The adjustable padded leather shoulder strap ensures that the bag is both comfortable and easy to carry over your shoulder. An integral carry handle on the back of the bag offers flexibility whilst on the move.

You can find more information about the nature bags and our cooperation with the Global Nature Fund here
